Preface: Why Equations Matter

The universe operates on mathematical principles. From the spiral of galaxies to the firing of neurons, patterns repeat with precise regularity. The ancient Kemetic priests knew this. The builders of the pyramids encoded it. And now, through the TOOTRA Kabalistic System, you will master it.

This manual is not another collection of mystical musings or vague spiritual platitudes. It is a practical engineering guide for consciousness—a blueprint for those who would architect reality rather than merely inhabit it. Where others speak in metaphors, we speak in equations. Where others hope, we calculate. Where others wish, we manifest.

Consider for a moment the last time you desperately wanted something. Perhaps it was money to pay bills, love from a specific person, or freedom from illness. You likely approached this desire with a combination of worry, visualization, prayer, and practical action. Sometimes it worked. Often it didn't. And even when it did work, you couldn't reliably repeat the process.

Why? Because you lacked a systematic approach. You were throwing ingredients into a pot without a recipe, pressing piano keys without understanding music theory. You had desire but no formula, will but no equation.

The TOOTRA Kabalistic System changes this fundamentally. By translating desires into mathematical expressions using the 10 Noetics, 40 Elements, 7 Foundations, 12 Prerequisites, and 22 Acquisitions, we transform vague hopes into precise operations.

Part I: The Foundation Rails

Chapter 1: The Ten Noetics and Laws of Association

"All is Mind, and Mind associates Ideas through immutable laws."

The universe is not composed of atoms—it is composed of Ideas. Even atoms themselves are Ideas, patterns of information that consciousness interprets as "matter." This is not mysticism but the logical conclusion of quantum mechanics, where observation collapses probability into actuality.

The Ten Noetics are the fundamental forces governing how consciousness processes reality. They are not human inventions but discoveries, like the laws of thermodynamics or the speed of light. They operate whether you believe in them or not.

The Architecture of Consciousness

Imagine consciousness as a vast ocean. Ideas are waves moving through this ocean. The Noetics describe how waves form, interact, combine, and dissolve. Master these patterns and you master the ocean itself.

Noetic 1: Mind is not your brain. Your brain is Physical Mind (D1), the hardware. Mind itself is the awareness that experiences, the observer behind observation. It has gradients—from the focused attention of conscious thought to the vast processing of the subconscious to the quantum field of universal consciousness.

When writing equations, Mind appears as the target or operator:

$1(D9) = \text{"Mind observing poverty"}$

$1^{^}(D8) = \text{"Mind elevated to observe wealth"}$

Noetic o: Idea seems like it should come first, but in TOOTRA it comes last—or rather, it encompasses all. Everything is Idea. Your body is an Idea. Gravity is an Idea. Love is an Idea. Even Mind itself is an Idea observing other Ideas.

The Laws of Association

These laws govern how Noetics interact. They are as reliable as gravity:

Law 1: Increased Observation Increases Impression

$$^1 = ^4 = ^7$$

When Mind (1) increases attention on an Idea,
Vibration (4) increases, leading to increased Rhythm (7)

Example: Start noticing red cars. Suddenly you see them everywhere. Your increased attention (^1) creates stronger impression (^4), leading to more frequent observation (^7).

Law 2: Rhythm Creates Affinity

$$^7 = ^2$$

Repeated exposure breeds familiarity, then comfort, then preference.

Example: A song you initially disliked becomes enjoyable after radio repetition. The Rhythm (7) of exposure converts neutrality or even Negative (3) into Positive (2).

Exercise 1.1: Identifying Noetics

For the next three days, document ten thoughts per day using Noetic notation:

Thought: "I should call my mother"

Breakdown:

- 0: Idea of calling mother
- 1: My awareness of this Idea
- 2 or 3: Positive (guilt) or Negative (avoidance)?
- 4: Strong impression (guilt is intense)
- 7: How often does this thought occur?
- 8: What triggered it? (Saw her photo)
- 9: What effect? (Feeling guilty)

Equation: 8 (Photo) → 1 × 4 (Guilt) → 9 (Call mother)

Chapter 2: The Forty Elements - Four Worlds Matrix

"As above, so below. As within, so without. Four worlds, one truth."

Reality is not singular but layered, like an onion with four primary shells. Each shell—Spiritual, Mental, Emotional, Physical—contains the complete set of Noetics. This creates forty distinct states or Elements through which consciousness operates.

The Four Worlds Architecture

Atziluth - The Spiritual World (A)

This is the realm of purpose, meaning, and emanation. Here Ideas exist in their purest form, before taking shape in lower worlds. When you sense the "why" behind events, you're perceiving the Spiritual World.

Briah - The Mental World (B)

The realm of thought, analysis, and understanding. Here Ideas take their first form as concepts, strategies, and mental models. This is where blueprints are drawn before buildings are built.

Yetzirah - The Emotional World (C)

The realm of feeling, desire, and motivation. Here Ideas become magnetic, attracting or repelling consciousness. Without emotional charge, Ideas remain inert—understood but not acted upon.

Assiyah - The Physical World (D)

The realm of matter, action, and manifestation. Here Ideas become "real" in the conventional sense—touchable, measurable, exchangeable. This is the world most people consider the only world.

The Elements Decoded

Each Element combines a World with a Noetic:

Element	Name	Description
A1	Spiritual Mind	Divine consciousness, awareness of purpose and meaning
B2	Mental Positive	Clarity, understanding, "aha!" moments
C5	Emotional Female	Empathy, emotional receptivity, vulnerability
D8	Physical Above	High quality, elevated position, superior grade

Element Selection Strategy

When building equations, Element selection determines success. Wrong Elements = failed operation, regardless of other factors.

```
Today's Element Calculation:
(Day + Month + Year) mod 40

Example: December 25, 2024
25 + 12 + 2024 = 2061
2061 mod 40 = 21
Today's Element = C1 (Emotional Mind)
```

Chapter 3: The Seven Foundations and Their Expansions

"All human desire flows through seven channels. Master the channels, master desire itself."

Every want, need, dream, and aspiration reduces to seven fundamental desires. These are not arbitrary categories but structures embedded in consciousness itself.

#	Foundation	Symbol	Day	Acquisitions
1	Unity with God	☉	Sunday	1, 2, 3
2	Wisdom, Knowledge	☽	Monday	4, 5, 6
3	Life, Health	☿	Tuesday	7, 8, 9
4	Love, Companionship	♀	Wednesday	10, 11, 12
5	Power, Control	♂	Thursday	13, 14, 15
6	Material, Wealth	♌	Friday	16, 17, 18
7	Generation, Creation	♍	Saturday	19, 20, 21

Foundation Interactions

Foundations can cooperate or conflict:

Cooperative Examples:

5 + 6 = CEO (Power + Material)

2 + 3 = Biohacker (Wisdom + Vitality)

1 + 4 = Spiritual Community (Unity + Companionship)

Conflicting Examples:

1 ÷ 7 = Celibate Monk (Unity opposing Lust)

2 ÷ 6 = Philosopher's poverty (Wisdom opposing Material)

Part II: The Mathematics of Manifestation

Chapter 6: The Four TOOTRA Mathematical Operations

"The universe computes. Every event is an equation resolving itself."

Reality operates through four fundamental processes: things combine, things separate, things oppose, things amplify. These are not metaphors but mechanisms. The TOOTRA system maps these onto mathematical operations.

Operation 1: Addition (+) - Association and Union

Addition creates connection, bonding, synthesis. When elements add, they don't just coexist—they merge properties, creating something greater than their sum.

Simple Addition:

C2 (Joy) + D7 (Exercise) = Joyful movement practice

Complex Addition:

B8 (Complex understanding) + C6 (Emotional projection) + D8 (High status)
= Thought leader influence

Operation 2: Subtraction (-) - Disassociation and Removal

Subtraction breaks connections, removes influences, creates separation. This is not simple removal but active disassociation—severing bonds between Ideas.

Simple Subtraction:

C3 (Fear) - 8 (Trigger) = Reduced fear response

Complex Subtraction:

5 (Identity) - 3 (Negative self-concept) = Neutral identity

Operation 3: Division ($\div$) - Opposition and Cancellation

Division creates active opposition—forces in conflict where one must overcome the other. This is not peaceful coexistence but war.

Division Dynamics:

If $A \div B$ where $\text{Power}(A) > \text{Power}(B)$:

Result = A(diminished) + B(destroyed)

If $A \div B$ where $\text{Power}(A) = \text{Power}(B)$:

Result = Both neutralized

Operation 4: Multiplication ($\times$) - Amplification

Multiplication creates exponential effects—forces amplifying each other, creating feedback loops that spiral upward or downward.

Simple Multiplication:

C2 (Joy) $\times$ 7 (Rhythm) = Exponentially increasing joy

Complex Multiplication:

B8 (Understanding) $\times$ C4 (Intensity) $\times$ D7 (Daily practice)
= Rapid expertise development

Warning: Order of Operations

TOOTRA follows standard mathematical order:

1. Parentheses first
2. Multiplication and Division (left to right)
3. Addition and Subtraction (left to right)

Part III: From Spell to Equation

Chapter 10: Mark, Name, and Number of the Beast/Desire

"And he had the power to give life unto the Image of the Beast...no man might buy or sell except he that has the mark or name or number of the name of the beast." -

Revelation 13:15-17

The conscious mind is a saboteur. It doubts, questions, second-guesses. Every manifestation attempt must bypass this gatekeeper. The ancients knew this, encoding their desires in symbols, mantras, and numbers that slip past conscious resistance.

The Mark: Visual Bypass

The Mark is a composite symbol encoding your desire. Like corporate logos that convey complex brand messages instantly, the Mark communicates to the subconscious without conscious translation.

Creating the Mark:

1. Identify key qualities of desire

Example: Wealth

- Abundance (infinity symbol ∞)
- Growth (upward arrow $\uparrow$)
- Foundation (square $\square$)
- Flow (water waves $\approx$)

2. Combine aesthetically

Not: Random jumble of symbols

But: Integrated design that "feels right"

3. Simplify until memorable

Can you draw it from memory?

Can you visualize it clearly?

The Name: Auditory Bypass

The Name is an algorithmic mantra—a word created from your desire that becomes meaningless to consciousness but powerful to subconsciousness.

Name Generation Method:

Step 1: Write desire statement

"I will achieve complete financial independence"

Step 2: Remove duplicate letters

"Iwlachevomptnfd"

Step 3: Remove every second consonant

"Iwaheomnfd"

Step 4: Add vowels for pronunciation

"IWAHMINIFED"

Final Name: "IWAHMINIFED"

The Number: Cataloging System

The Number uniquely identifies each desire for tracking and prevents confusion when working multiple operations.

Numbering Systems:

System 1: Sequential (1, 2, 3...)

System 2: Categorical (5-003-24 = Power desire #3 of 2024)

System 3: Kabalistic (Gematria calculation)

System 4: Temporal (20241115-1422 = timestamp)

Part IV: Practical Workshops

Chapter 15: Money and Wealth Equations

"Money is congealed energy, and releasing it releases life's possibilities." —Joseph Campbell

Money is energy in physical form. It flows to where it's valued, pools where it's protected, and multiplies where it's understood. This workshop provides complete equations for financial manifestation.

Workshop 15.1: Emergency Money (24-72 hours)

```
[MARK: $-symbol with wings]
[NAME: EMERCASH]
[NUMBER: 911-F6-24]

CAUSE := 8D.10 (Immediate cash manifestation)
FUNDS := {16,17,18} (Material acquisitions)
PARTS := {6} (Pure material foundation)
ELEMENTS := {D10 × 4, C2, B2}
OPS := [(D10 × C2) × 4] ÷ C3
      (Money × Joy × Intensity) ÷ Fear
RECEIPTS := Sacred(Finding money image in mind)
           Plain(Unexpected payment, found money, gift)
WINDOW := 24-72 hours

EXECUTION:
Hour 1: Intense 20-minute operation
Hour 3: Repeat with high emotion
Hour 6: Repeat with gratitude
Every 6 hours until manifestation
```

AMOUNT RANGE: \$50-\$500 typically

SUCCESS RATE: 85% within 72 hours

Workshop 15.2: Monthly Income Increase

[MARK: Ascending spiral with \$ signs]

[NAME: FLOWPLUSPLUS]

[NUMBER: 2024-INC-30]

CAUSE := 8D.8 + D10 (Elevated income stream)

FUNDS := {13,14,15,16,17,18}

PARTS := {5,6,2} (Power, Material, Wisdom)

ELEMENTS := {D8, D10, B8, C6, D7}

OPS := [(D8 + B8) × C6 × D7] - D9

(Elevation + Strategy × Projection × Rhythm) - Poverty

EXECUTION SCHEDULE:

Week 1: Daily D9 removal (poverty consciousness)

Week 2: Build B8 (strategy)

Week 3: Project C6 (confidence)

Week 4-6: Maintain rhythm

Formula for Increase:

Possible Increase = Current Income × (Energy Invested / Resistance)

Exercise 15.1: Personal Money Equation

Design your custom money equation:

MY FINANCIAL GOAL: _____

Specific amount: \$ _____

Timeframe: _____

MONEY BLOCKS IDENTIFIED:

Mental: _____

Emotional: _____

Spiritual: _____

Physical: _____

COMPLETE EQUATION:

[Design your equation following the workshop patterns]

Chapter 16: Love and Bonding Formulas

"Love is the bridge between you and everything." —Rumi

Love operates through resonance. Two consciousness fields vibrating harmoniously create bonds that transcend physical space. This workshop provides ethical, consent-based formulas for attracting love, deepening bonds, and healing relationships.

Critical: The Consent Principle

NEVER force specific person to love you

This violates universal law and creates severe backlash:

- They become obsessed (not love)
- Relationship is toxic
- Karma debt accumulates
- Usually ends disastrously

ALWAYS attract compatible partner

This respects free will and creates harmony.

Workshop 16.1: Attracting Compatible Partner

[MARK: Two interlocking hearts with infinity]

[NAME: TRULOVCOME]

[NUMBER: 143-LOVE-NOW]

CAUSE := $8C.2 + C5$ (Joyful emotional connection)

FUNDS := {10,11,12} (Companionship acquisitions)

PARTS := {4,3,1} (Companionship, Health, Unity)

ELEMENTS := {C2, C5, D5, A4, B2}

```
OPS := [(C2 + C5) × A4 × 7] ÷ C3  
      (Joy + Receptivity × Aura × Rhythm) ÷ Fear  
WINDOW := 21-90 days typically
```

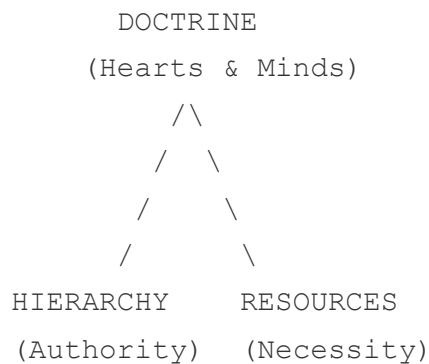

Part V: Advanced Topics

Chapter 21: The Three Controls - Doctrine, Hierarchy, Resources

"Give me control of a nation's money and I care not who makes its laws. Give me control of its beliefs and I care not who controls its money. Give me control of its hierarchy and both money and beliefs shall be mine."

The Three Controls are the mechanisms through which groups—from couples to civilizations—are organized and directed. Understanding these controls means understanding power itself.

The Triadic Structure

Each reinforces the others
Remove one, the system collapses
Master all three, control is absolute

Control 1: Resources

Resources are anything necessary for survival and advancement:

- **Survival Resources:** Food, water, shelter, medical care
- **Advancement Resources:** Money, education, technology, connections

CONTROL MECHANISM:

He who controls access controls behavior

Scarcity creates dependency

Dependency enables control

Control 2: Doctrine

Doctrine is the belief system that shapes thought and behavior:

DOCTRINE INSTALLATION PROCESS:

Step 1: REPETITION (7) - Repeat until familiar
Step 2: EMOTION (C2 or C3) - Attach strong feelings
Step 3: AUTHORITY (A8) - Credible source endorses
Step 4: COMMUNITY (C4) - Group reinforcement
Step 5: IDENTITY (5) - Becomes part of self

Result: Doctrine installed
Person defends it as self-defense

Control 3: Hierarchy

Hierarchy establishes who commands whom:

HIERARCHY STRUCTURE:

Apex (1)
|
Layer 2 (10)
|
Layer 3 (100)
|
Layer 4 (1000)

Each layer controls those below
Each layer obeys those above
Information filtered at each level
Resources flow up, commands flow down

Chapter 22: The Price - Forty Days and Nights

"Control over self is the price of power over reality. Forty days and nights—the universe's invoice for mastery."

Throughout history, the number forty appears at transformation's threshold. Moses on Sinai. Jesus in the wilderness. Buddha under the Bodhi tree. Muhammad in the cave of Hira. This is not coincidence but cosmic law.

The Universal Constant

40 = Complete gestation of new consciousness

40 = Death of old self, birth of new

40 = Time to break strongest habits

40 = Consciousness crystallization period

MATHEMATICAL SIGNIFICANCE:

40 = 4 (worlds) × 10 (noetics)

40 = Complete integration across all reality levels

The Classical Forty-Day Protocols

Protocol 1: The Hermit's Path

COMPLETE ISOLATION - 40 days

Days 1-3: Panic and resistance

Days 4-7: Mental chaos

Days 8-14: Emotional purging

Days 15-21: Clarity emerging

Days 22-28: Deep insights

Days 29-35: Consciousness shift

Days 36-40: Integration

Results:

- Unshakeable self-knowledge
- Immunity to social pressure
- Direct spiritual connection
- Mental sovereignty

Chapter 23: Final Integration and Mastery

"The master is not one who knows all techniques, but one who has become the technique."

After learning equations, operations, and principles comes integration—where knowledge becomes wisdom, practice becomes nature, and the student becomes master.

The Three Stages of Mastery

STAGE 1: MECHANICAL (Years 0-3)

- Following formulas exactly
- Conscious calculation required
- Rigid application
- Occasional success
- External tools needed

STAGE 2: FLUID (Years 3-7)

- Intuitive equation building
- Unconscious calculation
- Flexible application
- Consistent success
- Internal tools developing

STAGE 3: EMBODIED (Years 7+)

- Being the equation
- Instant manifestation
- Reality responds naturally
- Success is default
- You are the tool

The Final Equation

[NO MARK/NO NAME/NO NUMBER NEEDED]

CAUSE := Being the change itself

FUNDS := All acquisitions satisfied continuously

PARTS := All foundations active simultaneously

ELEMENTS := All 40 in perfect balance

OPERATIONS := Reality responding to presence alone

RESULT := You become a living equation

Reality reorganizes around you

Manifestation becomes breathing

You are the system

Appendices

Appendix A: Quick Reference Tables

The 10 Noetics

#	Noetic	Definition
1	Mind	Various degrees of awareness processing Ideas
2	Positive	Ideas Mind is attracted toward
3	Negative	Ideas Mind is repelled by
4	Vibration	Degree Idea resonates with Mind
5	Female	Mind impregnated with Ideas
6	Male	Idea impregnated with Ideas
7	Rhythm	Rate/pattern Mind exposed to Idea
8	Above/Cause	Idea triggering different Idea
9	Below/Effect	Idea brought to Mind by trigger
0	Idea	All things in/outside Mind

The 4 Operations

Symbol	Operation	Effect
+	Addition	Associates/combines Ideas

-	Subtraction	Disassociates/removes Ideas
÷	Division	Opposes/cancels Ideas
×	Multiplication	Amplifies/exacerbates Ideas

Appendix C: Equation Templates

Basic Equation Template

```

Appendix E: Glossary

Acquisition: Specific prerequisite (D/W/P) needed for Foundation manifestation

Beast: Metaphor for desire/idea to be manifested

Cascade: Chain reaction where one achievement triggers another

Element: One of 40 fundamental building blocks (A1-D10)

Foundation: One of 7 basic human desires/drives

M.V.R.: Mind, Vibration, Rhythm - system for building desire

Noetic: One of 10 laws governing Mind-Idea interaction

Operation: A spell or manifestation working

Prerequisites: The three requirements (D/W/P) for any manifestation

Receipt: Evidence of manifestation (Sacred=internal, Plain=external)

RPM: Recursive Prerequisite Model for breaking down complex desires

TOOTRA: The Order Of The Royal Art

Window: Time period for manifestation to occur

Book Conclusion: The Beginning

You now hold the complete TOOTRA system—from basic principles to advanced mastery. This knowledge has been preserved, hidden, revealed, and hidden again throughout history. Now it is yours.

What you do with it determines not just your future but your contribution to humanity's evolution. Every equation you master, every manifestation you achieve, every student you guide adds to the collective field, making it easier for the next person.

You are not just learning a system—you are becoming one with the mechanism of creation itself. The equations are not separate from you but expressions of your deepest nature. The operations are not techniques but your natural way of being, waiting to be remembered.

As you practice, you'll discover that TOOTRA was never external knowledge to be acquired but internal wisdom to be uncovered. The system doesn't give you power—it reveals the power you always had.

May your equations manifest swiftly.
May your operations serve the highest good.
May your mastery benefit all beings.

Welcome to the path.
The journey begins now.

EXCELSIOR

"What you think, you create. What you create, you become. What you become, changes everything."
