### Introduction

---

#### Purpose

---

This handbook provides the complete formal specification for Tootra mathematical notation, enabling consistent interpretation and creation of Tootra expressions across all practitioners.

#### Fundamental Principle

---

Every Tootra expression follows PEMDAS and consists of: - **Body**: The idea/concept being expressed (any Tootra component) - **Noetic Superscript**: How consciousness interacts with that idea - **Foundation Subscript**: The driving force/context underlying the expression

---

# Core Symbol Systems

---

## 1. The 40 Elements

---

**Notation Format:**  $X_n$

Where: -  $X \in \{A, B, C, D\}$  represents the world -  $n \in \{1, 2, 3, 4, 5, 6, 7, 8, 9, 10\}$   
represents the element number

**World Classifications:**

- **A:** Spiritual World (A1-A10)
- **B:** Mental World (B1-B10)
- **C:** Emotional World (C1-C10)
- **D:** Physical World (D1-D10)

**Example Elements:**

A1 = First spiritual element  
B5 = Fifth mental element  
C7 = Seventh emotional element  
D10 = Tenth physical element

## 2. The 10 Noetics (Superscripts)

---

**Notation Format:**  $X^k$  where  $k \in \{0, 1, 2, 3, 4, 5, 6, 7, 8, 9\}$

**Definitions:**

- **^0:** Idea - Pure potential/all possibilities
- **^1:** Mind - Focused awareness/attention
- **^2:** Positive - Attracted to/drawn toward
- **^3:** Negative - Repelling/dismissing
- **^4:** Vibration - Depth of impression/resonance
- **^5:** Female - Composing identity/self-image
- **^6:** Male - Component of larger structure
- **^7:** Rhythm - Pattern/repetition/entrainment
- **^8:** Above/Cause - Triggers other ideas
- **^9:** Below/Effect - Result of another idea

**Examples with Noetics:**

A2^2 = Spiritual element 2 that mind is attracted to  
B3^3 = Mental element 3 that mind repels  
C5^5 = Emotional element 5 that forms identity  
D7^7 = Physical element 7 in rhythmic pattern

### 3. The 28 Foundations (Subscripts)

---

**Notation Format:** `_ {mf}`

Where: - `m`  $\in$  {1, 2, 3, 4, 5, 6, 7} represents the foundation type - `f`  $\in$  {a, b, c, d}  
represents the world manifestation

#### Foundation Types:

1. Unity with Source/Divine
2. Wisdom/Insight/Knowledge
3. Life/Vitality/Health
4. Companionship/Love/Friendship
5. Worldly Power/Influence/Control
6. Material/Food/Things
7. Lust/Sex/Reproduction

#### World Manifestations:

- `a` : Spiritual manifestation
- `b` : Mental manifestation
- `c` : Emotional manifestation
- `d` : Physical manifestation

#### Examples with Foundations:

A2^2\_{1a} = Spiritual positive operating through spiritual unity drive

### 4. The 22 Acquisitions

---

**Notation Format:** Numbers 1-22 representing prerequisites

- Acquisitions 1-3: Prerequisites for Foundation 1
- Acquisitions 4-6: Prerequisites for Foundation 2

- Acquisitions 7-9: Prerequisites for Foundation 3
- (Pattern continues...)

### Example Usage:

`22^8_{1a}` = Acquisition 22 as a causal trigger in spiritual unity context

## Mathematical Operators

### Tootra Operators (Energetic/Dynamic)

#### 1. Association (+)

**Purpose:** Links or combines consciousness fields **Example:**

`A2^2 + C5^2` = Spiritual positive associates with emotional identity

**Interpretation:** Both elements coexist and support each other

#### 2. Disassociation (-)

**Purpose:** Removes or severs influence **Example:**

`C3^3 - A1^8` = Remove spiritual causation from emotional negativity

**Interpretation:** The second element's influence is extracted from the first

#### 3. Intensification (×)

**Purpose:** Amplifies or fuses elements **Example:**

`B2^2 × D7^7` = Mental understanding amplified by physical rhythm

**Interpretation:** Multiplicative increase in force/presence

#### 4. Opposition (÷)

**Purpose:** Creates contrast or polarity **Example:**

`(A2^2 + C5^2) ÷ D3^3` = Positive spiritual-emotional opposes physical negative

**Interpretation:** Elements exist in tension/contrast

## Set Theory Operators (Structural/Logical)

---

### 1. Union ( $\cup$ )

**Purpose:** All elements from both sets **Example:**

$$(A1 \cup A2 \cup A3)^{\wedge 2}_{\{1a\}} = \text{First three spiritual elements, all attractive}$$

### 2. Intersection ( $\cap$ )

**Purpose:** Only overlapping elements **Example:**

$$(B2 \cap C2)^{\wedge 5}_{\{4c\}} = \text{Where mental and emotional element 2 overlap, forming identity}$$

### 3. Element Of ( $\in$ )

**Purpose:** Membership relationship **Example:**

$$C5 \in (A1 \cup B2)^{\wedge 1}_{\{2b\}} = \text{Emotional element 5 exists within spiritual-mental union}$$

### 4. Subset ( $\subset$ )

**Purpose:** Complete containment **Example:**

$$\{B1, B2, B3\} \subset \text{Mind}^{\wedge 1}_{\{2b\}} = \text{First three mental elements entirely within awareness}$$

### 5. Empty Set ( $\emptyset$ )

**Purpose:** Absence or void **Example:**

$$(2^{\wedge 2} \cap 3^{\wedge 3}) = \emptyset = \text{Positive and negative cannot coexist}$$

### 6. Complement ( $^{\wedge}C$ )

**Purpose:** Everything except specified set **Example:**

$$(\text{Physical})^{\wedge}C = \{A^*, B^*, C^*\} = \text{Everything non-physical}$$

## Causal Operators

---

1. Causes (→)

$$A1^8 \rightarrow B2^2 = \text{Spiritual trigger causes mental attraction}$$

2. Results From (←)

$$D7^7 \leftarrow C4^4 = \text{Physical rhythm results from emotional vibration}$$

3. Bidirectional (↔)

$$B2^2 \leftrightarrow C5^5 = \text{Mental attraction and emotional identity reinforce each other}$$

4. Necessarily Implies (⇒)

$$(A1^1 + B2^2) \Rightarrow C3^9 = \text{Spiritual-mental awareness necessarily causes emotional effect}$$

5. If and Only If (⇔)

$$D7^7 \Leftrightarrow (C4^4 \times 7^7) = \text{Physical rhythm exists if and only if emotional vibration is rhyt}$$

# Expression Structure

## General Form

### Single Term

$$Xn^{k_{\{mf\}}}$$

Where each component is optional but follows this order when present.

### Complex Expression

$$[(Term_1 \circ Term_2) \circ Term_3]^{k_{\{mf\}}}$$

Where  $\circ$  represents any valid operator.

# Reading Order (PEMDAS)

- 1. **Parentheses:** Innermost groupings first
- 2. **Exponents:** Noetic superscripts modify meaning but not calculation
- 3. **Multiplication/Division:** × and ÷ from left to right
- 4. **Addition/Subtraction:** + and - from left to right
- 5. **Set operations:** Apply as encountered

## Example with Full PEMDAS:

Expression:  $[(A1^2 + B2^2) \times C3^3]_{4c} \div D4^4_{5d}$

Step 1:  $(A1^2 + B2^2)$  = Spiritual and mental positive association

Step 2:  $[...] \times C3^3$  = Previous intensified by emotional negative

Step 3:  $[...]_{4c}$  = Whole expression in emotional love context

Step 4:  $[...] \div D4^4_{5d}$  = Opposed to physical vibration in power context

# Interpretation Guidelines

## The Three-Layer Reading Method

### Layer 1: Identify Components

Read each atomic term identifying: - World and element (the conceptual content) - Noetic charge (consciousness interaction) - Foundation drive (motivational context)

### Layer 2: Apply Operations

Process operations following PEMDAS: - Energetic operations show force dynamics - Structural operations show logical relationships

### Layer 3: Synthesize Meaning

Combine all layers into coherent interpretation.

## Complete Worked Example

### Expression:

$$[(B2^2_{2b} \cap C5^5_{4c}) + D7^7_{7d}] \rightarrow A1^8_{1a}$$

Layer 1 - Component Identification:

- $B2^{2b}$  : Mental element 2, attractive, through mental wisdom
- $C5^{5c}$  : Emotional element 5, identity, through emotional love
- $D7^7$  : Physical element 7, rhythmic
- $A1^{8a}$  : Spiritual element 1, causal, through spiritual unity

Layer 2 - Operation Processing:

- $(B2^{2b} \cap C5^{5c})$  : Intersection of mental wisdom-attraction and emotional love-identity
- $[...] + D7^7$  : Previous intersection associates with physical rhythm
- $[...]_{7d}$  : Entire structure grounded in physical sexuality
- $[...] \rightarrow A1^{8a}$  : This causes spiritual unity trigger

Layer 3 - Synthesis:

"Where attractive mental wisdom and emotional love-identity overlap, when associated with physical rhythm in a sexual context, triggers spiritual unity consciousness."

Advanced Expressions

RPM (Recursive Prerequisite Model)

```

"Mental understanding integrated with emotional identity through love, amplified by phy
```

```

RPM(G) = {
    P1 = B2^1_{2b}           // Mental focus on wisdom
    P2 = (C3^3 - A3^3)_{3c} // Remove spiritual negative from emotional negative
    P3 = D7^7 ∈ Media_{5d}  // Physical rhythm exists in media through power
}

RPM(P1) = {
    P1.1 = (∅ → B1)^8_{1a} // Void triggers mental awareness spiritually
    P1.2 = 22^2_{2b}        // Acquisition 22 becomes attractive mentally
}

Satisfaction function: s(P) ∈ {0,1}
Overton viability: ∏s(Pi) = 1

```

## Story Narratives

### Example: The Fall and Rise of Faith

Chapter 1 - Original Unity:

Chapter 2 - The Doubt:

$S_2 = 3^8 \rightarrow (A1 \notin S1)_{5d}$

"Negative trigger causes spiritual exclusion through power"

Chapter 3 - The Void:

$S_3 = S1 \setminus A1 = \emptyset^1_{1a}$

"Unity minus spirit equals conscious void in spiritual context"

Chapter 4 - The Search:

$S_4 = (\emptyset + 2b)^2_{2b} \rightarrow C4^4_{4c}$

Chapter 5 - Reconstruction:

$S_5 = [(C4^4 \times 7^7) \cup A1]^5_{1a}$

"Rhythmic emotional vibration reunited with spirit forms new identity"

## Validation Methods

# Convergent Interpretation Test

Two trained Tootrians should independently read an expression and arrive at similar core meanings.

## Validation Example:

**Expression:**  $(A2^2 + C5^5)_{\{4c\}} \times D7^7_{\{3d\}}$

**Tootrian 1 Reads:** "Spiritual attraction joined with emotional identity in love context, intensified through physical rhythm for vitality"

**Tootrian 2 Reads:** "Attractive spiritual element associates with emotional self-concept through love drive, amplified by physical repetition for health"

**Validation:** ✓ Core meaning convergent (spiritual-emotional unity amplified physically)

# Operator Selection Validation

## Decision Tree:

Is the relationship:  
├ Energetic/Dynamic?  
| └ Use Tootra operators (+, -, ×, ÷)  
├ Structural/Logical?  
| └ Use Set theory (∪, ∩, ∈, ⊂, ∅)  
└ Both?  
    └ Use hybrid expression

## Validation Test:

Can you replace the operator with these phrases?

**Tootra Operators:** - (+) "associates with" - (-) "removes from" - (×) "intensifies through" - (÷) "opposes"

**Set Theory:** - (∪) "together with" - (∩) "overlapping with" - (∈) "belongs to" - (⊂) "entirely within"

If the substitution maintains meaning, operator choice is valid.
